Longavita, THE TABLET OF LIFE.

(Pilula At Lomgan Vitan The Scientific Discovery of the Age!

The Magic Key to the Mystery of Life!

From time immemorial it has been man's predominating ambition to prolong Life. But among the many brilliant minds who have devoted their lives to the fascinating subject it was left to the immortal Darwin to give to the world, in his great theory of Life, the fundamental principle upon which to build all further research in this direction. Following closely in his footsteps came Prof. Dr. Ludwig Buechner, a German scientist of international renown, with his remarkable work entitled "Das Buch des Langen Lebens" (the book on Longevity). But alas, like Darwin, he tood ied ere he could reap the fruit of his wonderful doctrine. Others, however, equally great took, up the interrupted thread, with the result that two famous German scientists, after years of experiments and research, have at last discovered the secret of Longevity, in the shape of a remarkable Vegetable Compound, which, if properly used, will positively prolong Life. This new remedy, appropriately named "Longavita" (meaning Long Life) has been subjected to the most rigid tests at all the leading clinics and hospitals throughout Europe with marvelous results. Appreciating the importance of this discovery, we have acquired, at enormous cost, the exclusive proprietary right to this aruly wonderful preparation, which has proved a blessing to mankind. "Longavita" is the true Tablet of Life, a rejuvenator par excellence, embodying the veritable secret of Longevity in a practical, feasible form. It is the fountain of perpetual youth, which it prolongs far beyond its present limits, while retaining health in a perfectly normal state. "Longavita" brightens the eye, stimulates mental activity, gives elasticity to the step, makes the face full, absorbs wrinkies, cleanses the system, parifies the skin, and is the only true Ponce de Leon remedy for old and young of both sexe. Endorsed by Europe's leading physicians.

ST. AGNES' CHURCH DEDICATED.

With Impressive Ceremony and Great Pomp.

The dedication of St. Malachy's church it a part of their daily lives to offer on Sunday was one of those impressive prayer to the ininite God. Religion, sisted by the clergy of the church, together with the visiting priests present. The archbishop and clergymen, following the crossbearer, two acolytes and the censorbearers, proceeded from the residence of Father Mulcahy to the front door of the church. There the opening prayer was recited by the archbishop, beginning with the antiphon, "Asper ges Me," the clergy reciting at the same time the psalm "Miserere." Immediately following, the procession marched around the outside of the church, the archbishop sprinkling the walls of the church and its foundations with holy water, reciting the "Asperges Me."

After this the interior of the church and the altars were blessed. Then the sacristy and there prepared for the solemn high mass which followed.

The altars gave out a resplendent lights of different shades of color. There were something like 60 priests present, services of the mass: Rev. James J. O'Brien, Somerville, celebrant; Rev. master of ceremonies.

In spite of the storm a only on Sundays or on some special oclarge audience crowded the church at an early hour. Unswerving loyalty to God, an acknowledgement of his word, have always been characteristic of the people of any nation believing in the same, as chosen by him for a special purpose. All this has been exemplified by the Catholic church in this country. A little more than a hundred years ago the hierarchy in America was established with Father John Carroll of Baltimore as bishop, and his diocese the entire United States. Before this time the French and Span-ish missionaries had labored in different parts of the country. A Catholic was hardly known at that time outside of Lord Baltimore's colony throughout the United States. Now we have in America a cardinal prince of the holy church, 14 archbishops, 77 bishops, 11,636 priests, 10,329 churches, 3811 parochial schools and a Catholic population of over 10,000,000. THE RIGHT OF SUFFRAGE.

The right of suffrage which has come down to'us' from the fathers is a precious legacy which we are bound to hold in sacred trust. The ballot cost years of hardship and bloodshed. The right to cast a free, and untrammelled vote was born of those seven long years of war, when individual liberty was the prize to be won. In a country like ours, where every man enters as a factor into all governmental affairs, it is not only the privilege but the duty of every legally qualified voter to cast his ballot.

This we say in view of the national election which is to occur on next Tuesday. The Enterprise in its discussion of the situation has purposely refrained from any partisan discussion of the political field, and largely for the reason that it is the inalienable right of every man to vote as he pleases. We insist that no one shall stand between us and the ballot box, and we gladly accord the same right-of-way to others. But we insist at the same time that it is the bounded duty of every man of required age and qualification to cast his vote No one should be deterred from voting by reason of any attempted campaign scare that business will be upset and the very life of the country endangered in case this, that or the other party shall succeed at the polls on Tuesday next. It is fortunately true that our free Republican government is safe in the keeping of the American people whichever party may succeed in securing the majority vote. It is cruelly wicked that this campaign alarm is gotten up every four years for no other purpose than to win the popular vote. Everybody knows that the secular newspaper press for the past few weeks has been largely unreliable in all its political writings.

The intelligent voter should, as he approaches the polls on election day, discard the shouting declamation and value. To gather up the past so as to the carelessness with which business is ribald talk of the mere politician, and preserve it for future generations is a oftentimes done. It is fortunate that vote as his conscience dictates. The ballot on Tuesday should not be cast through any groundless fear of bankruptcy in business or through any fear that we as a people are gravitating towards the rule of an empire. The country is safe whether it be President for which there can be no excuse. McKinley or President Bryan. The American people are greater than any one or all of its public servants combined, so that the cry of "danger ahead" is nothing other than that false alarm, "there is a lion in the way." Every live man of us should vote in accordance with his political preferences, without fear or favor. It is in this way we shall cast our ballot on Tuesday, and ested in the Arlington of today and towe hope there is not a voter in Arling- morrow. "WHY MEN DON'T GO TO CHURCH."

The Rev. Frederic Gill, pastor of the Unitagian church, gave on Sunday evening to his people an informal and interesting talk on the subject "Why men don't go to church." Mr. Gill stated at the very outset of his discussion that he did not think that the quality of the preaching had so much to do with non-attendance upon church services as many people claimed. As will be seen in our report elsewhere in this issue, the "why" men don't go to church Mr. Gill bases more largely upon other causes than that of "the quality of the preaching." And it is at this very point we desire to write edi-

So far as we have been able to learn either by observation or from books, it is regarded as a truism that the success of an advancing army largely depends upon its commanding officers. The lawyer has no good reason to hope that he may win his case unless he has all ability which will enable him to so adroitly marshal his forces that he can make the most of the evidence given. It has come to be a common saying and for the most part a true one that "as the teacher is so is the school," and thus it goes through the whole list of business and professional life. We do has a church membership that is up not see how the world of theology can be made an exception to this all-pervading rule that it is the leader upon whom must depend the ultimate success of the work in hand. While we quite agree with Mr. Gill that the reasons he educes for non-church going have more or less to do with absenting one's self from public worship on the Lord's day, still success in all its religious work. we do not question that the chief reason for non-attendance in the church going world can only be satisfactorily ex-

ST. AGNES' CHURCH.

The dedication of St. Agnes' church on Sunday, as will be seen by our report elsewhere in this issue, proved a most brilliant and interesting occasion. A description of the stately edifice was published in our last issue, and a full account of its dedication is found, as we have already said, in another column, so that this editorial line is of the church prise. Mr. Fay, of hardly more than itself and of that enterprise which the members have shown in the rebuilding or rather remodelling of the church.

Father Mulcahy deserves the best word that can be given him in the push and pluck he has evinced in the now perfected enterprise whereby his large and growing parish can be more amply accommodated. Father Mulcahy is a man of affairs as well as a preacher of the "word." He understands how to do things. He intelligently plans and then he wisely executes. In his present beautiful church building he has shown the skill and ability of the successful business man that he is. Father Mulcahy is to be congratulated, too, that he with the times, and is ready at a mo-

HOW DOES IT HAPPEN?

How does it so frequently happen that a trusted official in our national banks is able to get away with his hundreds of thousands of dollars without anvone suspecting the thief and the amount stolen until the defaulter is gone? It seems well nigh incredible that under our present banking system and a large assortment of first-class bedding, these lapses in the faithful performance of one's duty could occur. How can it be explained that Alvord, on a salary of only a few thousand dollars a year, and at the same time living at the expense of fifty thousand dollars, could have gone on for so long a time without being in the leastwise suspected of wrong doing? Unless greater care is had the time will soon come when the question will be asked: "Are our banks safe society on Tuesday evening induces us places for deposits?" The "rummage sale" which has been play. going on in Swan's block since Thursday afternoon, and which is now in full blast, is proving itself a success all round. The room has been packed, jammed all the while. Almost every conceivable useful article is on sale, and sales are being made at bottom prices. Brattle street, since its improvements, hardly knows itself. A decided improvement has been made at this point, and improvements that will be substantial as well as ornamental. Whenever we hear a good joke we never rest easy until we tell it to the first man we meet, so here is the latest joke, which is a fact, and for this reason more of a joke is it: A man here in Arlington, whose name we withhold. went down to the rummage sale on Thursday and bought a pair of trousers for 50c. the pair he was daily wearing. Much satisfied with his bargain he took the trousers home and showed them to his wife, who, when she saw them, exclaimed, with a twinkle in her eye, 'Why, my dear husband, these are a pair of your old trousers that I took down only yesterday to the sale!"

It was with saddened hearts that the many friends here in Arlington heard of the death of Mrs. William Locke, which occurred a little more than a week ago in Canaan, Conn. Mrs. Locke will be remembered by our older people as Miss Jane Schouler, daughter of the late Mr. Robert Schouler. The first years of Mr. and Mrs. Locke's married life were lived here in Arlington. Mrs. Locke was a woman beloved by all who knew her. Genial and attractive in all her ways, she drew about her many the light and life of her home. The Rev. Mr. Gill, who has become a good deal distinguished for preaching practical sermons to his people, gave in his church on Sunday eyening an informal discourse on the subject "Why men don't go to church." Mr. Gill gave several reasons why men absented themselves from the public services of the Sabbath. He thought the quality of the preaching was really not so prominent a reason for such absence as many claimed. The clear, persistent work of the week he gave as one cause why many a man did not go to church, and then again the object and purpose of the church was somewhat misunderstood by many of the absentees. Mr. Gill laid a good deal of stress upon church music as a prominent factor in public worship. There were several other points upon which Mr. Gill touched in the elucidatalks, such as Mr. Gill gave on Sunday evening, are always interesting and in-

Franklin excelled in everything he undertook. Making his way to Philadelphia, a mere boy, he became a newspaper man whose ability was recognized on both sides of the water. Mr. Schouler gave emphasis to the fact that Benjamin Franklin believed that the newspaper should be an educator as well as a gleaner of news, and so it was that Franklin made his own paper an instructor in the home and elsewhere. Editor Enterprise Thank you, Mr. Editor, for the space afforded me in your last number in reference to a chime of bells on the Baptist church in Arlington, and right here I correct an unintentional error in your personal notice that "Pro Bono" was not a Baptist. The fact is exactly opposite, and one would not presume to suggest desired improvements in other than their own church. Allegiance to one's church and its tenets is one of the to the idea, and hope we may have the chime sometime, if not at present.

After the frost has touched the corn, and a thin floor of ice has formed in the woodland pool, then in the early mornings Sir Reynard starts forth from his scene, and the exquisitely beautiful But to see this rogue one must be up before the sun, and hie away to some hilltop nearby a pasture. Soon faint streakings in the east tell you that another day is born. Presently a faint yelp like that uttered by a sick puppy is wafted to our ears on the morning breeze, and soon we see the lithe form of a red fox as this rogue makes his way across the field. Nearer he comes until he is within gunshot of us. His redyellow glossy coat flashes in the morning light, and his bushy tail sweeps the ground like a train. He looks very handsome as he stands on a mossy mound, but soon a bay of a hound he hears, and with a bound the fox has cleared the stone wall and is gone. The cubs of the red fox are from five to seven in number, and there is no prettier sight than to watch them at play before their den in a ledge of rocks. Wild and free they are in every movement, these forest dogs, but at the least sound they scurry into their den and are lost to the world. Making his home in our pine forests and chestnut groves the gray squirrel is found. The gray squirrel never looks so pretty as when in his native haunts, and as he leaps from tree to tree, with a nut or two for his winter's store, he utters his bark that is music to the ear. During the summer the gray squirrel's nest is built of bark strippings from cedar trees made into a big round ball. Later he goes and finds a hole in some hollow beech or oak, and this he makes his winter quarters. Besides his diet on acorns and nuts, young birds' eggs and different kinds of fungus are eaten by squirrels. Who does not like the chipmunk? one of the liveliest of our forest neighbors. Sometimes when the chipmunk is met within our walks he will not run and hide, but stand still and watch you with his little bead like eyes, but when you move slightly this creature is off like a flash. Now and then one finds these creatures dead-shot by somebody with a gun, who did it just for sport, says the brute, Everybody is familiar with the muskrat of our bogs and streams, but who has ever seen him when he was un conscious that he was being observed? On warm afternoons in the early fall you can see him in any marsh sunning himself on a hummock while eating freshwater clams that suits his greedy taste. He seems always on the look out, for Mr. Mink is very fond of muskrat flesh. On nights when the frost bites the air he plies his trade, and his cabin rises above the water in the meadow. Through the winter months he lives with peace and comfort in his well-built home. At first sight a woodfavorably with the attendance on simi- chuck appears so clumsy and slow that you are apt to remark, "How stupid an animal," but nevertheless he is as wise as a Roman-goose, and, almost instantly aware of your approach, his lethargy disappears and he is off like a flash When the leaves have turned and squire rels gather their harvests, eating little of wheat away in a hollow to eat some winter's day, the woodchunk feasts from morn till night, and no sooner finds a turnip or carrot than he devours it, for he is storing up only a supply of fat under his skin. And so when chill November comes he goes to his burrow and sleeps soundly with no sense of hunger until he awakes in March. Then his preparations for winter recommence, and he breakfasts eagerly on the young shoots and rushes thickets and pine woods, and although startled by a gray rabbit hopping across autograph is printed in the snow. Nature gave the gray rabbit a coat with a color that has many times saved his a person actually could step over him without seeing that he is there. Father Connolly spoke in part as fol-

no change, created the world by his word, who controls by wisdom and goodness and enriches by his blessing, and should be praised. Such sentiment of a christian consists in loving God, and praying at all times in obedience to his holy will, and remembering that to praise and glorify God is the principal duty of a christian. The Catholic ligion is a religion of charity, and therefore we must labor for others as well as for ourselves. The spirit which should animate us is a spirit of zeal for God. This is especially needful at the present day, when evil is present throughout the land. Catholic action is not a mere passing fervor that soon fades from sight. It is not good intentions which fall to the ground that God wishes. The zeal necessary to sustain us in the contests of the age is divine ardor kindled at the fire of faith, which die. only with life itself. By prayer, word of speech, example, force and sacrifices are our aims attained. The first medium of action is prayer. By prayer we put to flight the legions of Satan and win victory for the army of God. An immense responsibility rests upon the Catholics of today. The father is redaughter, husband and wife, friend and friend, master and servant. us who neglect this duty which devolves true faith is adhered to, should go out to the workshop, byways, and to all the haunts of men, a true spirit which exemplifies the words of the redeemer. which marks the words of the lowly Nazarene when he said to Peter: 'Thou art Peter, and on this rock I will build my church, and the gates of hell shall not prevail against it.' There is one great obstacle which confronts so called christian men, and that is fear. Good men, honest men, who respect everything that is right and just, are slaves of the sentiment of fear. They fear to act, they fear to speak. All that is pure is profaned, all that is just is attacked all that is holy is blasphemed, and yet they remain silent. They should have the courage of their convictions, and be as courageous as the enemies of religion and social order. Man is essentially an imatative being; therefore we should give at all times and in all places a good example, and our lives then will be an admirable model for all men. Today in mainly to drag his bleeding heart over our land truth and virtue are being attacked, God denied and the church attacked. We must then also be men of contention, and lay a pitiless warfare against men who would promote evil he began: against faith. At the same time we "Can I must exemplify charity, and be generous and fair towards those to whom we would desire to know the true faith, and our triumph then is certain. We have a multitude of enemies to contend with, and our numbers are small. By the light of faith, by mortification and sacrifice we can overcome them. Nothing great in this world is gained without sacrifice. We who are blessed with the worldly goods of life should give cheerfully to the homes of the orphans, hospitals for the sick, christian schools, the education of the little ones and to other charities. If we so do God will bless us, for he loves the generous giver. To give in the interest of religion is to give in the interest of God, and he always pays back with interest. "Do not know," he repeated in a dazed sort of way, "do not know." It was a vague, uncertain answer, and he did not understand it, To his noble nature it was a mystery, he could master all his feelings, why not others'?

Silence, not the kind so often called golden, but the bitter silence when hearts are breaking, now reigned in that pretty little cottage. Little had been said, but it is unnecessary to say much where love is; 'tis spoken with the eyes. Neither liked to break the spell, though each suffered in their own way. To him it was the blasting of all his golden dreams. To her, well she liked him and she was grieved at his displeasure. But, as all things come to an end, even though that end be bitter, so must this painful silence. With a sigh she moved her foot and withdrew her hand from his. "My love," he breathed, but the words sounded to him like hollow bras. and he hesitated, he dared not go on. for he was young and inexperienced. Not so with her. With a subtle look and a playful smile she asked:

What is it, dear?"

She knew what was coming, why need she ask? Was it her pleasure to torture his soul? Was her delight the hot coals of a burning love and then submerge it in the cold waters of indifference? Eucouraged by her question

"Can I live and hope, Annie? Will you not encourage me a little? Can I win you by waiting?"

"It's no use, John. I can never be anything to you-"

"That is not true; you are all to me," he interrupted.

She smiled and bent over to him, and he kissed her.

"What do you expect of a man? Do you want a hero?"

"N-o," she drawled, but made no further reply.

"The world is a great battlefield, and we all have to fight our way, but all of last time we met, but now-now you throw me off as a worn-out garment. Have I a rival?" and grasping her hand he pressed it hard between his.

"I must go now," he said, and with another farewell they parted. They parted thus, these two so strangely mated. Their lives and thoughts were of each other, but why this parting? Had they not met and loved? Was The soloists were Dr. F. H. Clock, Cupid so sure of these hearts that he aimed but indifferently? Why this strange indifference on one side and ardent devotion on the other? Were the words of Johnson, then, so true:

"Court a mistress, she denies you: Let her alone and she will court you."

These and a thousand other thoughts passed through Jack Harding's mind as he walked home. The large shade trees cast their shadows before him, and he prayed for some imaginary gulf to open wide and close over him. He did not notice the numberless stars above him which looked so beautiful before he reached Annie Cate's cottage, nor shed their fragrance in the little gardens that he passed. His mind was occupied. How strange is life: oftentimes but a word or even a thought can
